

Vallisneria americana 'Mini twister'**No. 056B**

www.tropica.com

<u>Family</u>	Hydrocharitaceae
<u>Continent</u>	Asia
<u>Region</u>	South-east Asia
<u>Country of origin</u>	
<u>Height</u>	10-15+ cm
<u>Width</u>	5-15 cm
<u>Light requirements</u>	low-very high
<u>Temperature</u>	20-28 °C
<u>Hardness tolerance</u>	soft-hard
<u>pH tolerance</u>	6-8,5
<u>Growth</u>	medium
<u>Demands</u>	medium

Vallisneria americana 'Mini twister' is yet another graceful variety of *V. americana*. 'Mini twister' is similar to *V. americana* var. *biwaensis*, but in a miniature version. 'Mini twister' develops short, attractively twisted leaves, and can thus be placed between foreground and background plants. 'Mini-twister' is easy to grow and thrives even in less intensive light and without addition of CO₂-to the water.
